

# SUSTAINABLE SOLUTIONS

DRIVING COMFORT WITH KIMflex<sup>®</sup> INTEGRAL SYSTEMS

**KIMPUR**

**Integral Systems**

## **KiMflex**<sup>®</sup> INTEGRAL SYSTEMS

The social and economic activities in rapid growing cities have been increased due to the increasing population of the world, thus causing the transportation demands to be risen constantly.

In recent years, in order to adapt the transportation to the principles of sustainable development, the performance, safety and driving comfort of vehicles as well as their environmental impacts, social responsibility requirements and contributions to the economic development have been taken in consideration.

Polyurethane systems aim to reduce energy usage and therefore emission, by ensuring weight loss in vehicles with their lightness feature. The PU also enhances material durability and corrosion resistance thanks to its high--performance coating. In addition, it has been preferred by the automotive industry due to its many advantages such as lightness, durability, thermal and electrical insulation, design, and ease of production.

The versatile use of polyurethane also reduces the production costs, causing the automotive industry to be competitive in the global market. Thus, it contributes to economic development.

Accordingly, **Kimpur** has developed **KiMflex**<sup>®</sup> Integral Systems to support sustainability in transportation to ensure comfort and safe driving.

## APPLICATION AREAS

- Steering wheel
- Mat
- Armrest
- Bicycle seat
- Wire harness
- Dashboard
- Mudguard
- Bumper

## ADVANTAGES

- Flexibility
- Fast curing
- Smooth skin
- Suitable skin thickness
- Regular cell structure
- Different hardness alternatives
- Different demolding times alternatives
- Wide (molded) density range

## KiMflex® INTEGRAL SYSTEMS

# TÜRKİYE'S LARGEST POLYURETHANE SYSTEM HOUSE

**Kimpur** is the polyurethane system house with the largest capacity in the region, with a production capacity exceeding 200,000 tons. It leads the sector by exporting to more than 50 countries on 5 continents. Polyurethane systems produced; It is used in different sectors such as shoes, automotive, furniture, heating and cooling, insulation-construction and defense industry.

## LEGAL INFORMATION

At Kimpur, we strive to provide you with the highest quality polyurethane systems, backed by our expertise and dedication to innovation. The information provided in this brochure is a reflection of our expertise and knowledge. However, we highly recommend for users to conduct their own thorough assessments and tests to ensure the suitability and optimal performance of our products for their intended applications. While we strive to provide accurate and reliable information, Kimpur does not assume any liability or offer any warranty, whether expressed or implied, regarding the properties, performance, or fitness for a particular purpose of our products. Descriptions, specifications, and other details provided herein are subject to change without prior notice and should not be considered as binding contractual guarantees. As the recipient of our products, our customers assume full responsibility for compliance with all applicable laws, regulations, and intellectual property rights. We highly recommend obtaining comprehensive information on product toxicity, adhering to proper handling procedures, and ensuring compliance with safety and environmental standards. At Kimpur, we value our partnership with you and strive to provide exceptional support. However, it is important to emphasize that the application, use, and processing of our products are ultimately the sole responsibility of the user. Please note that the safety data provided in this brochure is for informational purposes only and does not constitute a legally binding Material Safety Data Sheet (MSDS). To obtain the relevant MSDS, kindly request it from your supplier or contact us directly at [uncommonsolutions@kimpur.com](mailto:uncommonsolutions@kimpur.com). Our team is ready to assist you with any inquiries or specific safety information you may need.
